UNIVERSITÀ DEGLI STUDI DI PAVIA

LUNG INVOLVEMENT and RHEUMATIC DISORDERS: from bench to bedside, from antigens to disease

PAVIA
SEPTEMBER
7TH-9TH
2023

Rationale of the Congress

In the last years, our approach to rheumatic disorders deeply changed, due to the availability of new diagnostic tools, and new therapeutic options. Furthermore, in line with the complexity of these diseases, we learned the crucial role of multi-disciplinarity for our patients. If lupus nephritis is the first example of collaboration between different specialties, interstitial lung disease (ILD) is the new frontier, with several centres organizing “multidisciplinary teams” aimed at the assessment of these patients. The pulmonologist, the radiologist, the rheumatologist, the laboratory specialist, and the general pathologist are key figures of these “multidisciplinary teams”, bringing different skills and competencies that should be necessarily harmonized in a constructive expert discussion.

However, despite the progresses, several aspects should be clarified, starting from the pathogenesis, but including the role of laboratory tests, the process of screening for ILD and in ILD patients, the management of immunosuppression, and the use of antifibrotic therapies.

We planned this congress to evaluate all these aspects, discussing about the difficulties that may be encountered in the management of patient with ILD and rheumatic disorders, and highlighting the strength points recently acquired thanks to multidisciplinary. Our main goal is to increase the awareness of participants in the usefulness of the collaboration with different specialists in the assessment of patients with rare and complex manifestations of systemic rheumatic disorders.

7th September, Thursday

14:00-14:20

Authorities' greetings

Prof. F. Svelto, Prof. V. Bellotti, Prof. C. Montecucco

14:20-14:30

Congress introduction

Prof. L. Cavagna, and Prof. G. Erre

14:30-16:00

MYOSITIS AND SYSTEMIC SCLEROSIS: FOCUS ON ANTIGEN TARGETS AND SPECIFIC ANTIBODIES

Chairpersons: C. Selmi and R. Giacomelli

14:30-14:55

Myositis spectrum disorders: the antigens, the antibodies, and the disease

L. Cavagna

14:55-15:20

Systemic sclerosis: the antigens, the antibodies, and the disease

C. Olivieri

15:20-15:45

Myositis and systemic sclerosis specific autoantibodies: the point on available detection technique

A. Ceribelli

15:45-16:00

DISCUSSION

16:00-16:20

Coffee break

16:20-17:20

RHEUMATOID ARTHRITIS AND ANCA ASSOCIATED VASCULITIS: FOCUS ON LUNG INVOLVEMENT

Chairpersons: G. Sakellariou and L. Cavagna

16:20-16:40

The pathogenesis of Rheumatoid arthritis related Interstitial Lung Disease

A. Manzo

16:40-17:00

Why ANCA associated vasculitis affect lungs?

S. Monti

17:00-17:20

DISCUSSION

17:20-18:00

PEARLS FOR CLINICIANS

Chairpersons: G. Sakellariou and F. Meloni

17:20-17:40

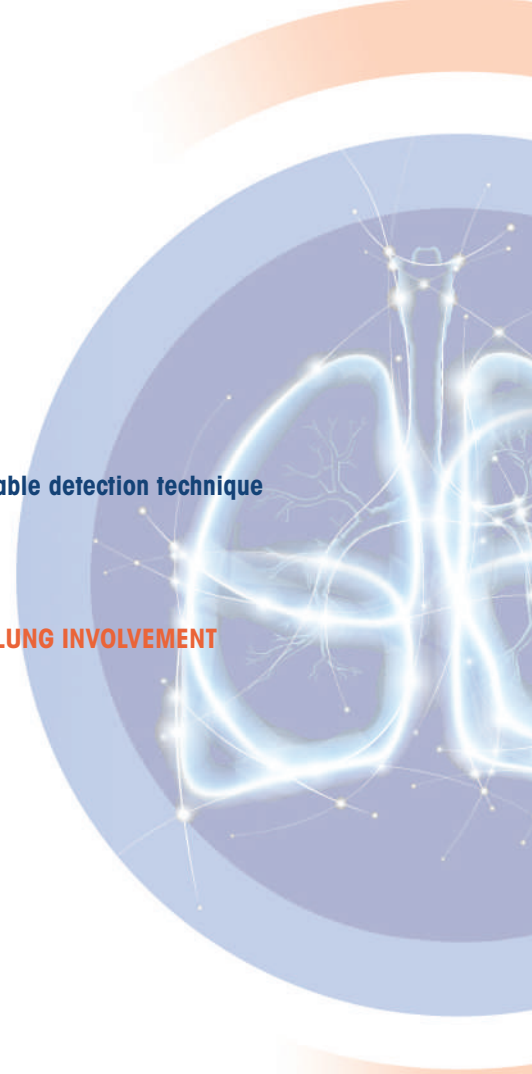

HRCT automatic scoring systems

C. Romei

17:40-18:00

Issues on lung biopsies?

S. Tomassetti

LUNG INVOLVEMENT and RHEUMATIC DISORDERS: from bench to bedside, from antigens to disease

PAVIA
SEPTEMBER
7TH-9TH
2023

8th September, Friday

09:00-10:35

IPAF AND THE MYOSITIS SPECTRUM DISORDERS CONDITIONS

Chairpersons: *F. Meloni and J. Rojas-Serrano*

09:00-09:15

The current knowledge on Interstitial Pneumonia with Autoimmune features
G. Sambataro

09:15-09:30

Myositis Related disorders and lungs: clinical aspects and screening
M. Gatto

09:30-09:45

Myositis related disorders and lung: issues on therapy
R. Aggarwal

09:45-10:00

Rapidly-Progressive ILD in anti-MDA5 syndrome
A. Selva-O'Callaghan

10:00-10:15

DISCUSSION

10:15-10:35

Case presentation
E. Dourado

10:35-11:10

Coffee break

11:10-12:35

LUNGS IN RHEUMATOID ARTHRITIS

Chairpersons: *S. Castaneda and M.A. Gonzalez-Gay*

11:10-11:25

Rheumatoid arthritis and lungs manifestations: clinical aspects and screening
C. Montecucco

11:25-11:40

Rheumatoid arthritis and lungs: issues on therapy
J. Fonseca

11:40-11:55

**Which level of immunosuppression for RA patients with bronchiectasis:
focus on abatacept and biological therapies**
G. Erre

11:55-12:15

DISCUSSION

12:15-12:35

Case presentation

M. Fornaro

12:35-14:00

Light Lunch

14:00-15:45

SYSTEMIC SCLEROSIS

Chairpersons: *M. Matucci-Cerinic and L. Cavagna*

14:00-14:15

Systemic Sclerosis and lungs: clinical aspects and screening

D. Giuggioli

14:15-14:30

Systemic sclerosis and lungs: issues on therapy

D. Khanna

14:30-14:45

The approach to veno-occlusive disease in Systemic Sclerosis

V. Codullo

14:45-15:05

DISCUSSION

15:05-15:45

Case presentation

L. Bianchessi

15:45-16:15

Coffee break

16:15-18:00

PEARLS FOR CLINICIANS

Chairpersons: *C. Sciré and F. Luppi*

16:15-16:35

Patients' selection for lung transplantation: how to deal with rheumatic diseases

F. Briganti

16:35-16:55

Vaccination and prophylaxis in rheumatic diseases

R. Bruno

16:55-17:15

How to classify patients with myositis

G. Zangframundo

17:15-18:00

DISCUSSION

LUNG INVOLVEMENT and RHEUMATIC DISORDERS: from bench to bedside, from antigens to disease

PAVIA
SEPTEMBER
7TH-9TH
2023

9th September, Saturday

09:00-10:25

ANCA ASSOCIATED VASCULITIS

Chairpersons: *A.G. Corsico and F. Iannone*

09:00-09:15

ANCA associated vasculitis and lungs: clinical aspects and screening

C. Ponte

09:15-09:30

ANCA associated vasculitis and lungs: issues on therapy

M. Bond

09:30-09:45

Difficult aspects: Anti-IL5 use in pulmonology and rheumatology setting

A. Berti

09:45-10:05

DISCUSSION

10:05-10:25

Case presentation

P. Delvino

10:25-10:55

Coffee break

10:55-12:35

PEARLS FOR CLINICIANS

Chairpersons: *R. Gerli and G. Erre*

10:55-11:15

Jak and the magic bean: facts, myths, and perspectives of The Jak stat inhibition

R. Caporali

11:15-11:35

The right timing of antifibrotic therapy in Rheumatic disorders

F. Meloni

11:35-11:55

The management of Lupus nephritis and the long journey of Belimumab

G. Zanframundo

11:55-12:15

Complement inhibition: a new therapy for dermatomyositis

L. Cavagna

12:15-12:35

DISCUSSION

12:35

Concluding remarks and learning test

L. Cavagna and G. Erre

PAVIA
SEPTEMBER
7TH-9TH
2023

GENERAL INFORMATION

September 7th-9th, 2023

Università degli Studi di Pavia

Aula Magna - Piazza Leonardo Da Vinci, 12
27100 Pavia

ORGANISING SECRETARIAT AND PROVIDER (N. 181)

dynamicom
education

Viale Brianza, 22
20127, Milano
Tel. 02/89693750

E-mail: elena.rocca@dynamicom-education.it

The Event is part of our training plan

The course is included in the list of final events for the training program 2023 of the Italian accredited provider DYNAMICOM EDUCATION (code ID 181). To obtain the training credits, participants must be specialized exclusively in the disciplines indicated on the program, attend 90% of the scientific works (presence check with signature on register), pass the learning assessment (tool used questionnaire), deliver to the secretariat the documentation completed in its entirety.

Accredited categories: Medicine and surgery

Main disciplines: Rheumatology, Allergology and clinical immunology; Respiratory diseases, Internal medicine

Maximum number of participants: 100

CME credits: 12 (only for Italian physicians)

CME ID: 181-388336

REGISTRATION

Registration is **MANDATORY**
and must be received before
31st August, 2023

Register at the following link:

[https://eventi.dynamicom-education.it/events/
lung-involvement-and-rheumatic-disorder/](https://eventi.dynamicom-education.it/events/lung-involvement-and-rheumatic-disorder/)

Please, make sure to complete
registration through the link above.
You will receive an e-mail with your
enrolment confirmation.

Registration fee: free

The Congress will be streamed
on live on the University of Pavia
IDCD Eventi's You Tube channel
