

# “Clinical Patient Management System (CPMS) European Reference Network on Rare and Complex Connective Tissue and Musculoskeletal Diseases (ERN ReCONNET)”

---

## European Reference Network on Rare and Complex Connective Tissue and Musculoskeletal Diseases (ERN ReCONNET) CPMS

The **Clinical Patient Management System (CPMS)** is a secure web-based application to support *European Reference Networks (ERNs)* in the diagnosis and treatment of rare or low prevalence complex diseases or conditions across national borders.

The **CPMS** enables clinicians to enroll patients who have given their consent to have their data shared on this virtual platform. At the same time, CPMS allows healthcare professionals to actively collaborate by using comprehensive data sharing models.

### Added value for rare disease patients

The **CPMS** system provides a crucial tool for *rare and complex disease* patients enabling healthcare professionals across Europe to discuss clinical cases in a safe and protected environment. In addition, the CPMS by bringing together highly specialized healthcare providers in complex, rare, or low prevalence diseases facilitate and ameliorate the diagnose, treatment, and improvement of the quality of life of persons living with rare diseases.

### CPMS main characteristics

- Secure platform for sharing patient data
- Standardized clinical information models
- Internationally recognized ontology systems
- Video Conferencing Facility
- Data encryption
- Optimized Consultation Workflow
- Radiology & Pathology Viewers

**Do you have any clinical cases to discuss in the CPMS?** Contact us via email at [ern.reconnet@ao-pisa.toscana.it](mailto:ern.reconnet@ao-pisa.toscana.it)!
